

FLOOR LIGHTING SYSTEM

DEWERT

A Phoenix Mecano Brand

Page 1/4 - stand of 03/2013

Non-dazzle LED illumination. Can easily be retrofitted by plugging into the drive's handset connection. Can be fitted directly onto the drive or the bed frame. The connection socket for the handset is incorporated in the floor lighting system. As a special version, two floor lighting systems can be connected with a Y-cable - two handset connections are then available.

- Protection type: max. IP66
- Equipment options: as a handset distributor with 2 floor lighting systems and 13-pole handset socket

Note: Responsibility for DEWERT products when used for specific applications and for adherence to the appropriate guidelines, standards and laws is borne by the manufacturer of the complete system into which DEWERT products are fitted. We accept no liability for the correctness.
